# Implementing Leading Financial and Accounting Practices

Eureka Solutions specialises in implementing business systems that ensure our clients have the information they need in order to run their businesses more profitably.

As the pace of change accelerates, some companies struggle to keep up – especially those still relying on aged, on-premise systems. While they strive to improve business performance and increase customer satisfaction in an increasingly competitive environment, businesses today need:

- + Metrics based on reliable data.
- + Efficient, automated processes.
- + Maintenance of compliance and control.
- + Flexibility resulting in an ability to scale.

Using the SuiteSuccess model, Eureka Solutions delivers a proven solution that can rapidly and confidently rise to these challenges, taking businesses from zero to the cloud in 100 days or less – a pre-configured solution and methodology that includes:

- + Proven detailed workflows.
- + Pre-configured role-based dashboards.
- + Role and industry specific KPIs.

NetSuite delivers a unique set of processes, activities and systems specifically designed to deliver value. By unifying the front and back office, NetSuite gives companies access to the true financial status of the organisation in real-time. With Financials First, we deliver pre-defined user dashboards that are specific to your role and developed from our years of experience with businesses just like yours. There's no waiting to get started. Your business is ready to grow from the start.

**"Right from the outset, I was impressed with how tailored Eureka Solutions' approach was to our needs. Whilst NetSuite is an excellent system, my priority was finding the right partner in the process who were willing to take the time to listen to our requirements, some of which were quite in depth, and to respond to these accordingly."**

# Why NetSuite?

NetSuite is the world's number one cloud-based business management system, run by over 40,000 organisations. These forward-thinking businesses have chosen NetSuite because it streamlines processes and unifies systems for a complete picture, for both the business and its customers on one single, secure platform.

Making the move to NetSuite means automatically delivered product upgrades, saving on ongoing IT resources and, importantly, it is a flexible and fully scalable platform that grows as the business does.

With NetSuite you can:

- + Support your entire business in the cloud.
- + Scale with ease.
- + Gain a more complete picture of your business.
- + Future proof your organisation.

## A Proven Path to Success for Financials

Eureka Solutions will deliver a unified and proven phased pathway, tailored to suit your strategy and priorities.

**"As our business expands it's crucial that we have a business management system that grows with us, allowing our teams to react quickly to change, problems and opportunities. We were looking for one system that would unite us across dozens of offices and airport locations."**
