

# Implementing Leading Practices for Professional Services

Eureka Solutions specialises in unifying the business management systems of professional services organisations, providing a robust, flexible foundation for ongoing growth and change.

As service businesses strive to improve business performance and increase customer satisfaction in an increasingly competitive environment, they need:

- + Metrics based on reliable data.
- + Efficient, automated processes.
- + Maintenance of compliance and control.
- + Flexibility, resulting in an ability to scale.
- + Ability to effectively manage people and projects.

Using the SuiteSuccess model, Eureka Solutions delivers a proven solution that can rapidly and confidently rise to these challenges, taking businesses from zero to the cloud in 100 days or less – a pre-configured solution and methodology that includes:

- + Proven detailed workflows.
- + Pre-configured role-based dashboards.
- + Role and industry specific KPIs.

**NetSuite SuiteSuccess offers a solution for professional services organisations of all sizes and business needs. Because all NetSuite solutions are run in the cloud, your professional services firm gets support for the way your services teams work today – on the road, between meetings and on-the-fly – with online, offline and mobile access.**

**SOLUTION:**  
**SuiteSuccess**

**ORACLE®** NETSUITE

**"The more we've used NetSuite and gotten to know the full breadth of its capabilities, the easier our lives have become and the more our business has grown. There's really nothing NetSuite can't do to support our continuing, rapid evolution."**

Liberate IT,  
on NetSuite

## DELIVERING TRANSFORMATIVE RESULTS

No need to start from scratch defining what you need your ERP system to do – NetSuite comes with leading practices, gained from thousands of successful implementations, built in.

**Continuous Customer Lifecycle Engagement** to ensure seamless continuity from sales to services to support.

**Full visibility across the organisation** to operate at the speed of modern business, drive results and scale.

**Professional Service Industry-based leading practices** build from nearly 20 years of collective implementation experience to drive value from Day 1.

**Fully flexible platform** which allows for customisation to industry and business need.

**180+ pre-built reports and pre-configured roles** with dashboards and business intelligence metrics.

# Why NetSuite?

NetSuite is the world's number one cloud-based business management system, run by over 40,000 organisations. These forward-thinking businesses have chosen NetSuite because it streamlines processes and unifies systems for a complete picture, for both the business and its customers, incorporating financials, ERP, CRM, ecommerce and more on one single, secure platform.

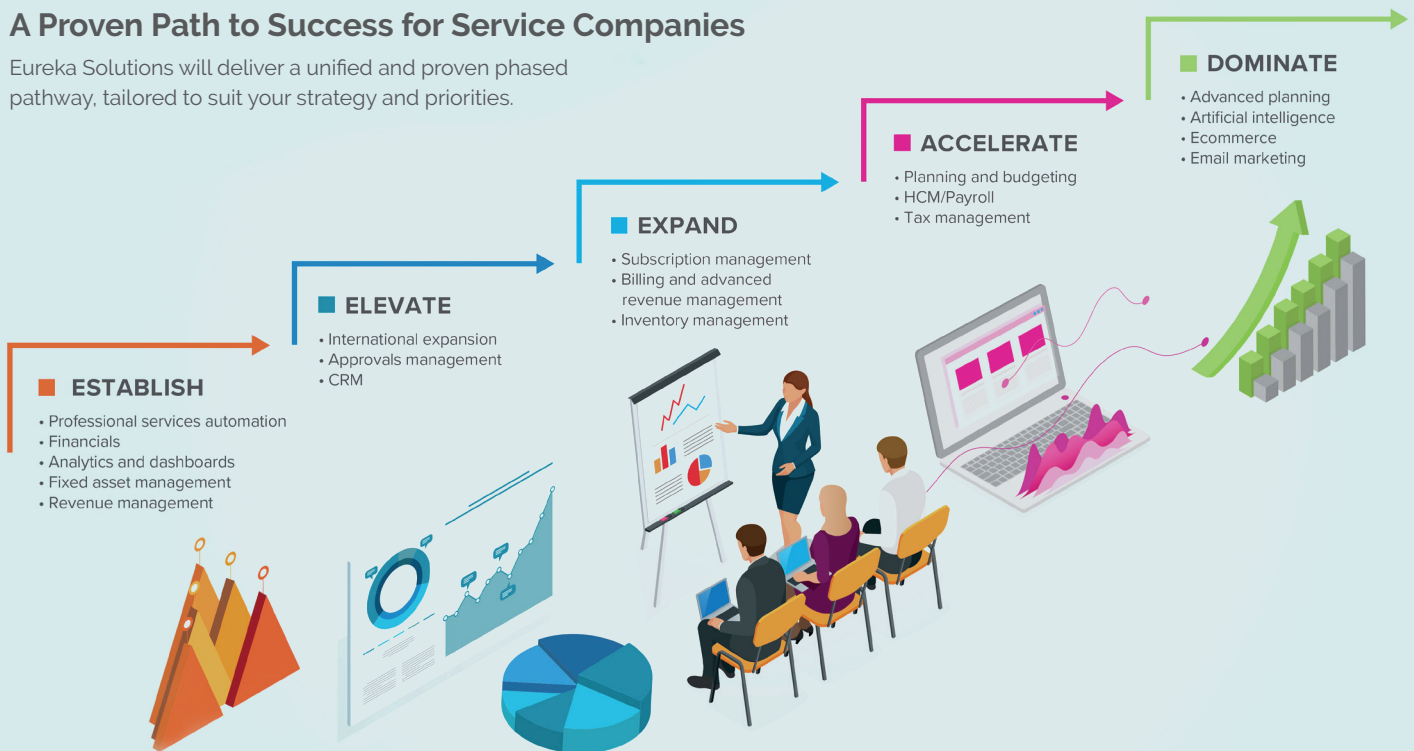

Making the move to NetSuite means automatically delivered product upgrades, saving on ongoing IT resources and, importantly, it is a flexible and fully scalable platform that grows as the business does.

With NetSuite you can:

- + Support your entire business in the cloud.
- + Scale with ease.
- + Gain a more complete picture of your business.
- + Future proof your organisation.

## A Proven Path to Success for Service Companies

Eureka Solutions will deliver a unified and proven phased pathway, tailored to suit your strategy and priorities.

**"NetSuite has far exceeded our expectations and has become our 'one stop shop' for all of our financial information. This, along with the excellent support we receive from Eureka Solutions, means we are keen to use NetSuite as a platform for growth and we plan to work with Eureka Solutions to extend the system to cover other areas of the business."**

Finance Director, Connect Managed Services,  
Eureka Solutions client

Eureka Solutions is widely recognised as one of the UK's leading NetSuite partners and our team boasts some of the industry's most experienced NetSuite professionals - from system specification through to development, implementation and ongoing support.
